

## CUPCAKE CARE TIPS FROM PRAIRIE GIRL BAKERY

We take 'Cupcake Care' seriously at Prairie Girl Bakery and we want your delicious treats to arrive at your office or home in perfect condition!

Please consider these cupcake cues:

- 1 The cardboard insert in your box is intended to secure your cupcakes, but for extra stability we suggest supporting your box from the bottom, even if you have requested a bag. This prevents your cupcakes from tipping.
- 2 Travelling can be hard on our freshly made cupcakes and their butter-based icings, so if you are taking your PGB cupcakes by plane, train, or automobile, chill them first to let the icings set, and they will arrive in pristine condition.
- 3 As our cupcakes are baked fresh every day they can be soft, and our mini cupcakes therefore may be tricky to remove from the box. Rather than pull on the mini cupcakes, press down on the cardboard insert while gently releasing your cupcake.
- 4 If you are not able to serve your cupcakes the same day, pop them in the freezer for up to a week then bring them to room temperature for 2-3 hours before serving (no need to microwave, simply thaw) - guaranteed they will be delicious!
- 5 If you have any questions or concerns about the care and safekeeping of your cupcakes, please let us know. Email or contact us at the bakery anytime: our main number at (416) 504-2253 or e-mail at [orders@prairiegirlbakery.com](mailto:orders@prairiegirlbakery.com). We will get back to you promptly!
